Dr. Fingerhood is a Professor of Medicine and Public Health at Johns Hopkins University, and Chief of the Division of Addiction Medicine at Johns Hopkins Bayview Medical Center. He earned Medical Degree from the Albert Einstein College of Medicine and completed internal medicine training and a chief resident year at Johns Hopkins Bayview Medical Center. Dr. Fingerhood created Comprehensive Care Practice in 1994, a primary care practice largely devoted to providing care to individuals with substance use disorder, that integrates buprenorphine treatment into the primary care setting for over 650 individuals. He has also co-created novel buprenorphine treatment programs at a community center, at a church and in a mobile van outside the Baltimore detention center. He has received the Health Equity Leadership award from the Baltimore City Health Department and is co-author of the ASAM Handbook of Addiction Medicine. Dr. Fingerhood chairs the ASAM State of the Art Conference and the ASAM Medical Education Council. He is on the steering committee of BCORE (the Baltimore Comprehensive Overdose Response to End the Epidemic), a city-wide collaborative working to improve coordination and access to treatment for patients with opioid use disorder.
