AMERICAN COLLEGE OF EMERGENCY PHYSICIANS

2022 Maryland ACEP Chapter Educational Conference & Annual Meeting
Thursday, April 21, 2022

FACULTY

Jason Adler, MD, FACEP

Clinical Assistant Professor

University of Maryland School of Medicine Director of Compliance and
Reimbursement Department of Emergency Medicine

PRESENTATION

Trimming the fat of note bloat - 2023 documentation updates you've
got to know.

DESCRIPTION

Coming in 2023, emergency medicine will have an entirely new set of documentation guidelines. These updates reflect physician documentation and are the first major update since 1997. The history and exam sections are no longer scored, and the entire record will focus on medical decision making. We will review the nuances of the MDM and its impact on reducing note bloat.

OBJECTIVES & OUTCOMES

- Review the highlights of medical decision making
- Emphasize the importance of social determinants of health (SDOH)

DISCLOSURE

No significant financial relationships to disclose.
