FACULTY

Nicole Cimino-Fiallos, MD, FACEP, FAAEM
Emergency Medicine Physician
Kaiser Permanente

PRESENTATION

Geriatric Emergencies - They aren't what they seem!

DESCRIPTION

Pearls on care of geriatric patients in the emergency department setting.

OBJECTIVES & OUTCOMES

- Identify how common medical problems can decompensate in older adults.
- Recognize that disease processes present differently in older patients.
- Learn to look for clues that differentiate common emergency department presentations from elder abuse.
- Develop strategies to establish goals of care for patients at the end of life.
