

Dr. Elizabeth Ogunsanya was born and raised in Prince Georges County, Maryland. She also completed part of her high school education in Lagos, Nigeria. She completed her bachelor's in science at the University of Pittsburgh and completed her medical degree at the George Washington University in our nation's capital, Washington DC in 2020. She is currently a PGY 4 resident at the University of Maryland Medical Center specializing in Emergency Medicine and Pediatrics, where at the end of her training she will be board certified in both Emergency Medicine and Pediatrics.

With a passion for global health and research, she spent part of 2023 at Lagos University Teaching Hospital in Lagos, Nigeria where she had the opportunity to work with adult and pediatric hematologists in treating sickle cell patients. In addition, she spent time researching differences in acute care management of common sickle cell complications in developed vs developing countries. She has had the opportunity to present at National Conferences, as well as Maryland ACEP in 2021, and is also published in the Journal of Neurotrauma. Her ultimate mission is to bridge the gap in healthcare disparities, by education, quality care, and mentorship.

Outside of work, she enjoys fitness, writing, and cooking. From teaching a spin class to binge-watching Hell's Kitchen, she finds joy in traveling the world, meeting new people, and creating new connections.
