

Ruba Omeira, MD, MPH is a PGY-2 emergency medicine resident at Georgetown University/MedStar Washington Hospital Center and is the rising Academic Chief Resident for the upcoming academic year. She earned her medical degree from Georgetown University, where she co-founded the Refugee Health Navigator Program and the Environmental Health and Medicine Track, advancing initiatives at the intersection of planetary health and medicine. She is a member of the MedStar Global Health Equity Track, with academic interests in cultural humility, health equity, medical-student education, and advocating for improved access and quality of emergency care for all patients.
